TO RECEIVE A SIGN UP FORM

The Fish Friendly Farming/Napa Green Program offers one-on-one technical assistance to vineyard managers/owners leading to the completion of a Farm Conservation Plan. Participants in the workshops receive free technical assistance in the completion of the plan, and can receive funding for soil conservation, road and erosion site repair, habitat restoration, stream bank stabilization and other projects. Farm Plans can be reviewed by a certification team consisting of the Regional Water Quality Board, NOAA-Fisheries and the County Agricultural Commissioner, allowing growers and property owners to be covered by a waiver from the Regional Board and gain written recognition for their land management practices and coverage under the TMDL for the Napa River watershed. The Fish Friendly Farming Program is the only program which supplies compliance for the fine sediment TMDL, a major water quality regulation for the Napa River

The workshop series will take place at the Napa County Farm Bureau Building at 811 Jefferson Street in Napa from 1 pm to 4 pm on February 4, 18, and 25 and March 4, 2010

Properties Enrolled in the Fish Friendly Farming Program in Napa, Mendocino, Solano and Sonoma Counties

Aadastra Vineyard	Gargiulo Vineyards	Neal Family Vineyards	Sterling Winery
Adobe Creek Vineyards	Geyser Peak Winery	Nissen Vineyards	Stonyhill Winery
